SUMMARY

Computer Science undergraduate focused on backend engineering, scalable systems, and AI-driven applications. Experienced in building RESTful APIs, microservices, and full-stack platforms using Flask, Next.js, and cloud technologies. Developed projects in cybersecurity and SaaS, including real-time vulnerability tracking systems. Strong in problem-solving, system design, and performance optimization.

EXPERIENCE

Backend Developer Intern

Fluencer Market

12/2024 - 04/2025 Delhi

- Designed and developed RESTful APIs using Flask to support influencer-brand collaboration workflows, enabling seamless data exchange between frontend clients and backend services.
- Architected scalable backend services for influencer data management, achieving a 35% reduction in server latency through query optimization and efficient data modeling.

PROJECTS

AstroRoni

AI-powered SaaS platform for personalized astrology insights

09/2025 - 02/2026

- Built scalable microservices backend using Flask, MongoDB, and GCP.
- Integrated OpenAI APIs, Razorpay payments, and secure Supabase authentication

RiskRadar

Real-time vulnerability scanner with AI-driven remediation insights

09/2025 - 02/2026

- Developed CVE tracking system with automated alerting and severity-based analysis
- Integrated Gemini AI for actionable fixes and deployed scalable services on GCP

Online Exam Panel

Real-time vulnerability scanner with AI-driven remediation insights

07/2024 - 08/2024

- End-to-end online examination and evaluation platform
- Automated answer evaluation pipeline to reduce grading time and improve efficiency

KEY ACHIEVEMENTS

MLH Hackathon – 1st Runner Up

Secured 1st Runner-Up position at an MLH (Major League Hacking) hackathon, building NeighbourNet — a mesh networking solution — and demonstrating strong problem-solving, rapid prototyping, and pitching skills under intense time constraints.

TECHNICAL SKILLS

Languages
C++, Java, JavaScript, Python, SQL, TypeScript

Frontend
HTML, Next.js, React.js, Tailwind CSS, CSS

Backend
Flask, Node.js, RESTful API Design, Spring Boot

Databases
MongoDB, PostgreSQL, SQL

Cloud & DevOps
Docker, Git, Google Cloud Platform (GCP), AWS

AI & Tools
Gemini AI, IntelliJ IDEA, OpenAI API, Postman

EDUCATION

B.Tech in CSE (AIML)

JIS College of Engineering

06/2025 - Present
Kalyani, West Bengal

Diploma in CSE

JIS School of Polytechnic

06/2022 - 05/2025
Kalyani, West Bengal

12th Standard WBCHSE

Pritinagar Bhudeb Smriti Vidyapith

06/2020 - 03/2022
Payradanga, West Bengal
